Work History

2022-11 -

Current

Front-End Developer

Reforest The World

- Developed and implemented reusable UI components using React, resulting in improved user experience and optimized website performance.
- Collaborated with project managers to select ambitious, but realistic coding milestones on pre-release software project development.
- Designed intuitive graphical user interfaces to improve user experience.
- Discussed issues with team members to provide resolution and apply best practices.

2020-05 -

Current

Freelance Web Developer

Self Employed Web, Los Angeles, CA

- Planned website development, converting mockups into usable web presence with HTML, CSS, JavaScript, and Python coding.
- Oversaw technical issues and troubleshooting requests to resolve user problems.
- Designed, implemented and monitored web pages, plugins and functionality for continuous improvement.
- Discussed site and app requirements with clients to produce actionable development plans.
